Introduction:

The Back to school boost is a Queensland Government initiative providing an annual \$100 contribution for every primary school student (Prep to Year 6) to assist with the cost of schooling essentials. More information about the Back to school boost Initiative is available via the Parent Information Sheet.

This form is for you to choose how you would like your Back to school boost credit balance to be applied. This form does not provide consent for your child to participate in an activity.

In shared care arrangements, Back to school boost credits are allocated to each parent according to the Parent Fee Allocation recorded in OneSchool. To apply a credit, schools require a response from each parent about their respective credit balances. This form can only record one response per child (the most recent response provided by either parent). If your response is not registered, your school will obtain your choice outside of this form.

Privacy Statement

The Department of Education collects the information you complete on the Back to school boost parent choice form in order to administer the Back to school boost credit. The information will only be accessed by school employees administering the Back to school boost credit. However, if required, some of this information may be shared with other departmental employees for reporting purposes. Your information will not be given to any other person or agency unless you have given permission or the Department of Education is authorised or required to by law to make the disclosure.

If you see more than one option below, you can choose one or more to decide how your Back to school boost credit balance is used. Your Back to school boost credit will be applied towards the first invoice(s) you receive for the selected options, until the full amount has been used.
